NOW ACCEPTING BITCOIN AND CSGO KEYS/SKINS AS PAYMENT

Season 5 ends November, 11th - Get your boosting in while you can!

Hello, I'm Infamy and I've been playing League for a very long time. I peaked Challenger for about a week in S3 but got knocked out before they implemented their whole 2-week safety period. Since then I have boosted an account to Masters and even got my own account to Masters before selling.

I'm a booster with nearly 3+ years of experience in the business and I've decided to re-open shop for the end of Season 5.

I have vouches on another forum I can show you but I figured I shouldn't use those vouches for this forum.

I'll only accept Paypal MYCASHCARD, pre-paid VISA gift cards, and only Paypal from extremely trusted users - Both physical forms of currency.

If you have ANY questions, feel free to PM me! Prices are NEGOTIABLE on a case-by-case basis.

One of my best streaks on the job:

Another great streak:

Opening shop again, can't edit the post to remove the whole "end of season" thing but selling boosting again, completely negotiable :)

Still looking to sell some boosting, can boost your MMR in preseason so your placements place you even higher :)
