Cell's Money Making Method

Introduction:

Hey guys, got a little bored so decided to share my little money making method, this isn't something that I have thought up, I'm sure many of you know about this method, but I bet most don't, hence why I'm sharing it xD

This method is basically a china wholesale method, however, it doesn't involve any fake phones, purses, bags, clothes, headphones or anything else you can think of that's been faked xD

So, onto the method =]

The Method:

It's basically selling Android TV boxes that have Kodi (XBMC) on them, and, because they have Kodi on them, that means they come packed with free movies, TV shows & live TV channels such as movie channels and sports, all free =]

How much is this going to cost me?

You can pick a box up from Aliexpress (I prefer using them to DHgate as they seem to come a lot faster, mine are normally here within 15 days, keep in mind, I'm from the UK).

1 box will cost you \$32 ([HERE](#))

I started off with 1 box, I'm now buying in bulk 10 a time every week (every Sunday xD).

How much can I sell these for?

Just take a quick search on eBay, they sell for around \$50 if you do it as Buy it Now, if you do an Auction you will probably get less, keep in mind, with using eBay/Amazon, you have fee's to pay, what you could do it set up your own website, but that would take too much time xD

I personally don't use eBay or Amazon, I sell locally using facebook and gumtree (you could use craigslist but the design drives me crazy).

The Money Math

Let's work out how much you could earn per box without selling on eBay.

1 box will cost you \$32, you can sell that box for \$50.

With that \$50 you can buy another 1 box for \$32 and (this is a must) DO NOT spend then remaining \$18!!

So, now you have another 1 box & \$18 profit, not bad to start with, so, let's say you sell your 2nd box for \$50, now you have \$50 + your \$18 from the last box which gives you \$68, so now, you can afford to buy 2 boxes.

You buy 2 boxes for \$64 & sell them 2 for \$100, now you can afford 4 boxes, do you see how this adds up xD

Let's say you want to start big and buy 10 boxes, that would cost you \$320, now let's say you sell those 10 boxes for \$50 each, that's \$500, that's \$280 in pure profit.

How well do these sell?

Very well, I personally sell about 4 a day within a 60 mile radius of my home.

[CLICK HERE!](#) - As you can see from this link, more than 13 sold yesterday (22-oct-2015).

Just think, I buy and sell 10 a week, that's \$280 a week in pure profit just sat on my ass, if I decided to sell online id probably make more, but I'm to damn lazy :P

Hope this helped =]

Enzio - October 23, 2015, 4:26 pm

I was looking to do this too because I have one at home.

I Just did not know which box to take. Thanks for sharing this :).
(Inb4 make an e-book and sell the method)

shagwell - October 23, 2015, 4:29 pm

Thank you! I'll make sure to try this out and report back, might even go into selling them on ebay etc though im from norway and shipping will be insane

Best regards,
Shagwell :blackhat.

Enzio - October 23, 2015, 4:30 pm

Just read the feedbacks and some people hated it lol.

Most seemed glad about it. Although, profit will be low because of shipping it and ebay fees :/.

Purplemeer - October 23, 2015, 4:30 pm

Thanks for sharing this man, helpfull

Migomon - October 23, 2015, 4:34 pm

are there any others like these?

NoobCell - October 23, 2015, 5:09 pm

I was going to try these:

[Click Here](#)

But there now illegal in the UK :P

They sell for about \$350-400

That might me interesting, it's 400€ for me (I just checked) that's twice the buying price

funtela - *October 24, 2015, 7:19 am*

Wouldn't these be illegal to sell in the US?

NoobCell - *October 24, 2015, 8:18 am*

I'm not 100% sure, I'm from the UK and never had any issues with them over here.
