Thread: [\[OPEN\] Stresser Source Creating: I'll Make Your Stresser Source! Also Doing Retheme's](#)

Delevingne - October 23, 2015, 6:25 pm

What is this?

- You can hire me here to create your stresser source!
- On request I can also re-theme your current source

What kind of features can you add? Custom Theme

Exploit Attempt Detector

Account Sharing Detector

Super Easy And Large Administrator Panel

Ticket Support

Support Rank

Multiple Theme's

and many more...

Please note: those are not standard features, I'll be creating the source on the features you want!

Previous Sources?

- Soon I can add a link to the stresser using my source, but it's not up yet
- till that time I can show interested customers previous sources, and sources
- where I am currently working on...

Support?

- I'll be supporting as long as you use the source! I'll also install it for you (if you want).

Price?

- Depends on the features, etc, mostly in the \$250-\$350 range.

Payment Methods:

- Bitcoins;
- Dutch Bank Transfer.

How does it work?

You pay 50% upfront -> I'll show you the complete source -> You pay the other 50% -> I'll send you the complete source.

Dorrance - October 24, 2015, 1:25 pm

Pm me your xmpp details to contact on, and me a quote for a returns with features added in.

420 Blaze It - October 24, 2015, 1:25 pm

You're doing this quite cheap, good luck!

Thanks! I hope people are interested in this service.

s0c1al - October 24, 2015, 8:29 pm

Could you please elaborate on 'Exploit Attempt Detector' how will you detect exploits, and which exploits?

Correct. It also checks for SQLi attempts

Terentino - October 25, 2015, 5:17 am

I'd do this for like \$20 btc lol. Definitely not worth \$250 just to copy and paste.

Thats why you come to me, for a quality source. Not a re-themed public source.

Delevingne - October 27, 2015, 3:29 pm

Still looking for interested customers!

dopeware - October 30, 2019, 1:51 am

omg, go to any forum and look for a drain of stressers resources and remodel for yourself and eliminate vulnerabilities

B100NL - June 20, 2020, 8:57 am

I have several stresser sources, but i need some1 to help me setup a stresser panel or use the sources
