Hey mate - Would love a vouch copy. Will post here and update later.

Royal Crowd - October 30, 2015, 11:07 pm  
It's called Mentoring, not monitoring,  
You've probably confused a lot of people.

Have a nice day! ?

Hello MattDo

I Know this post has nothing to do you with your thread but in the marketplace section, in the job  
hiring topic I put a post to seek for someone being able to find the real ID of a scammer (adress  
name country plus anything else).

You wrote on that post that you can do the job and wrote me to PM you.  
However I do not have enough post to PM you.

I m writing on this thread since you released it recently are that you are looking at this message very soon.

Would you have the kindness to sent me a PM with a way to contact you (skype, jabber) since among the public or private awswers I had you are the one who looks to me as having the most seniority and regarding to the thread you are posting that you have real high technhical skills.

Waiting for you PM.

Thanks in advance

I got a vouch copy of this service. My mentoring will start tomorrow but as what I observed he is very professional about his job. I will update this after the mentoring.

I did picked the RCE (Remote code execution) since I'm not the popular with it. So let's see how it goes.

So let start off by stating that I am not new to HF(Don't let the noob status fool you). I have written tutorials and have paid for services.

Let me just say I am on my first lesson and it is a great experience! He is friendly, engaging and very cool. He knows what he is doing. Give him a chance and I promise he will not disappointed. If you have no experience in SQL or anything web related he will give you everything you will need to know. I vouch for him. I will keep updated with each lesson. So far amazing. ?

OP is a very experienced pentester, he's also a great guy to with, a very chill one as well. He taught way more than i paid for, never cared for the timing, he event went to a cafe for faster connection.

Lessons are way too cheap imo n he deserves a lot more than these prices,

Hi Mandarin. I am attempting to reach you on skype . PM me back as I would like to complete our business. what is the skype name to reach you. You have great feedback on this forum. please do not pull a shady stunt risking that. look forward to speaking.

**RagnarLodbrok** - April 5, 2017, 11:21 am

we definitely have something going on here with Mandarin...have gotten messages from other members to stay away. i conducted one good business transaction with him and now have gotten nothing back on second. money paid. getting the awol type of shenanigans that a few have been attempting recently. if your business is still open Mandarin we as paying customers would like some responses. This is not excusable. Shocking because of the good rep he has maintained on here. If anyone is having issues as well feel free to let me know, or post here.

Have been chasing Mandarin while he goes online and offline for days one end. I'm still waiting for my work buddy. It's been 2 months and I have been nothing but trusting towards you but it seems like you're taking my kindness for granted. Your r online HF and Jabber but refuse to answer my messages.

reply me on jabber or I'll launch dispute and post on every thread you have. I didn't wanna do this but it's been 2 months and nothing has been produced.
