Thread: [Circular Progressbar](#)

VmX5 - October 24, 2015, 5:40 pm

Hello! I'm still very new to making themes and controls in GDI, I worked on this for about half an hour I hope you like it!

This originally was just a test project, It was never meant to be released but since I finished it and I haven't released anything in a while I decided well why not.
You can set the backcolour and the fill colour.

Source : <http://pastebin.com/j6KcMjQM>

Enjoy!

Thanks! Do you have any suggestions for me to improve?

Lone - October 25, 2015, 12:29 am

I realize this can be easily done by the user but if you WANTED to add anything I would do something like this as an option.

Nice start with GDI+... ;)

ObeyHacking - October 25, 2015, 3:13 am

What's gdi? But I like the bars (:
Off topic. This is my 420'th post!

Multibyte - October 25, 2015, 4:20 am

Nice release Sir, they look nice! ?

mrnikbobjeff - *October 26, 2015, 9:27 am*

A nice feature would be the possibility to set it on infinite repeat mode. Otherwise it is a really nice idea.

Adderall - *October 26, 2015, 12:27 pm*

Nice control, I like it.

I hope you will make more controls.

Illusionisten - *October 26, 2015, 1:55 pm*

Anyone got a circular knob with trackbar props?

hunters - *October 27, 2015, 5:53 pm*

nice graphics. thanks for this :)
