Thread: [False Claims](#)

**X a N a X** - October 25, 2015, 6:52 am

Is there a policy on false claims. Like someone spamming your threads or even putting on your reputation that you are infecting without showing any proof..

What is happening with your reputation may be Reputation abuse - contact a member of the [staff](#).

We recommend you take the time to read the [HF Help Documents](#) section. The answer to your questions should be contained in there.

No. All the reps on OP are valid reps and are not reputation abuse.

Anyone negatively Repping him as of his last thread

<https://hackforums.net/showthread.php?tid=5033402> was wrong to do so - after reading some accusations based on what another user had said, plenty of people jumped to conclusions and negatively repped him.

After trying to sort it out myself, I managed to organize it into a readable format and as long as the OP doesn't edit his thread, he is in the clear with what he has posted.

Besides the fact that he shared someone elses content without crediting them and then giving other users shit without just clearly stating what was going on.

I do not know if he was infecting other users previously and have found no proof of it as of yet. Will update if I find something - feel free to PM me with files and proof he sent them and I will analyze.

Yes, they're valid reps.

What is reputation abuse?

Reputation abuse can be very complicated subject matter. Here is a list of the following ways reputation can be viewed as abuse.

- Flaming: Using coarse language to describe or berate a member.
- Reputation as a currency: We do not allow the buying or selling of reputations.
- Gang Rep: The act of coordination with other members to raise or lower a member's reputation is not allowed.
- Rep Coercion: Using intimidation, threats, or blackmail to get reps added or removed.
- Rep Requesting: You cannot give hints, tips, or request reputations.
- Scammer Reputation: You're required to leave a link to a Deal Dispute thread you have created to infer someone is a scammer (ie: scammer, scams, chargebacks, scamming).
- Reputation Collusion: Agreeing to participate in reciprocal reputations with a member.

I -rep X member and tell my friend(s) to -rep X member too. What has happened is you have made a thread, and members have -repped you for it. It's not reputation abuse. If you wish you can PM an admin but you risk getting a rep fuck as it states in the [Help Docs](#);

How do I report abuse or get the invalid rep removed?

You can PM the admin Omniscient. Be warned. If you did not read fully this page and the rep left on your account was indeed within policy then you will get RepFucked without any hesitation. If you were left a scammer rep we may also do a full investigation of your account. If we find out you're breaking any site policies you will get a closed account.

you are just retarded and really unlikeable. we all -rep you becouse we just straight up hate you. the fact that you try in infect other HF members only makes it worse. all claims are true and if you

actually looked at your thread you would see why.

Once again your saying words with 0 proof show some proof . NUFF said. Als you said "we all -rep you" ? thanks for proving my point!

**Mr. Robot** - October 25, 2015, 9:30 am

After looking at other evidence I take back my earlier posts in this thread.

OP has posted some "stolen tools" without crediting the creators.

But.

Only then would he infect the files and PM certain users with the "right" link as to infect them.

**CRT** - October 25, 2015, 9:32 am

All the reps are valid. This thread should be closed already to prevent further useless posts.

Posting pm's is not allowed also . I have done nothing wrong no evidence has been shown. Also this user Poly has shown his pm's public which is definitely against the Rules Proof here ! Also enjoy your ban ;)
