(Oct 24, 2015 08:41 PM)?lixir Wrote: [\[CITE\]](#) This ebook that covers the different types of "S. tuberosum", clearly describes the uses and facts about spuds. The layout is simple yet effective and any reader can get a clear message that will translate very well. The grammar is on point with the comprehension. Though you can find most of this information online, or by personal experience, it is nice to have it all consolidated and refined to this exclusive ebook for all ages. 5/5! Will read again!

* I did not purchase said ebook, nor do i personally know the content creator. This was ebook was given to me for public review.*

This is a multi-purpose e-book, recommend by me to everyone, not for kindergarten use. This e-book covers up varieties of potatoes and what to do with them. You should not hesitate buying this e-book very much recommended.
