Thread: [should I sell RAT or sell source code?](#)

SHA256 - *October 26, 2015, 4:05 am*

If I sell source I would sell 3 for \$50 each.

It's a HQ rat. Not sure wether I should sell it or just sell source code.

Advice is appreciated :)

The Anonymous - *October 26, 2015, 11:59 am*

If i were you I would sell the source code, so people can customize it to their own needs and learn from your code.

Mircale - *October 26, 2015, 12:24 pm*

If it is well explained and commented Source code sell it, else sell the rat compiled.

If it is a HQ RAT, each copy will sell for \$30-40.

I'm sure that it is a public source.

Selling source code for 50\$? I am 100% sure it's not HQ

Cute Little Girl - *October 27, 2015, 7:57 am*

Selling the source is easier, because you have to do alot to release a rat then responding to tons of pm's and emails, I tried releasing one and I have to say I don't understand how people can deal with the bullshit.

Just sell the source you don't even have to update nothing unlike an official rat

Vintel - *October 27, 2015, 8:40 am*

Selling a HQ RAT source to 3 people, \$50 each???? Go back to LSX.
