?Cyber - October 27, 2015, 5:31 pm

So I received a vouch copy of this ebook and this is my actual review:

this ebook is loooooooooong, it's one long ass information filled ebook.

It isn't stretched with useless pictures - this ebook is basically the best RAT mentor you'll never need (because of this ebook) - it covers absolutely everything about RAT'ing, exploits, VPN's, staying anonymous, spreading any many other useful things you'll ever need to know.

Huge vouch for this, it's some top notch shit.

Will this picture spoofing work when zipped or being downloaded?
