Thread: [MyBB Sub-Forum or Redirect Forum/Forums Sub-Forum](#)

Sephy - June 26, 2010, 2:34 am

I searched for MyBB in this section (and HF News, because the search returned a whole-board search ?) and nothing came up.

There are over 400 threads for MyBB in this forum (<https://hackforums.net/search.php?action=results&sid=f290e29fcd14c3009a49dbade8ba8f75&sortby=lastpost&order=desc>) so I am suggesting we have a MyBB Sub-Forum/MyBB Central Redirect Forum/Forum Sub-Forum in Website Construction.

After all, MyBB is the best forum script out there and we all love it. ?

This is not really necessary. Pretty useless IMO

They belong in the Website Constructions section. No point in creating a sub section for it. I'll wait for Omniscient to give a final statement.

I know about MyBB Central, I just thought a link to it in the Website Construction would be appropriate.

This could be implemented. A redirect form like we have for credit cards in the marketplace.

Exactly!

This would also mean that more Hack Forums members may subscribe to MyBB Central. ?

Stupid idea. If we create a subforum for that it should be for Bulleting boards not only mybb. We are here to learn not to promote a damn script.

My post did specify the idea of a Forums sub-section as well.

I do believe vBulletain ranks a bit higher. But it's paid. Mybb is the best and most fun to script free

one. Hell it's the fun out of all of them.

There was a site that had a rating chart. About 40 million votes on 9 different forum scripts. mybb was #2. vBullshit was #1.

Insidific - June 26, 2010, 5:48 am

I don't think this would work, MYBB and other forum help works fine with website construction and should be left like that.

My opinion on the matter.

Omniscient - June 26, 2010, 7:28 am

I have no plans to do this.
