Thread: [Domain tips? DOXBIN clone](#)

hurstybro - October 28, 2015, 5:35 am

OK.

Hello,

I have got hold of the DOXBIN source code, and thought put up with a domain name, but I need help because I can not think of one. Any suggestions?

Thanks.

Mr. Robot - October 28, 2015, 5:36 am

Isn't the source code public?

Umm good domain would be something like

ReconShare

PrivateInvestigationDrop

I dunno lol

I dunno lolIt is, I think. It still took a while to find it for me. ?

Thanks for your suggestions.

Im changing the doxbins default style, yea pretty much editing the doxbins source.

Still need a good name..
