Thread: [Which Gaming Console?](#)

ha4x0r - October 29, 2015, 7:38 pm

Which gaming console do you prefer or like the most?

PlayStation 4

Or

Xbox One

I currently have them both and I have been a Xbox fan since 360 but I feel like PS4 provides more quality and nicer console to play on and as well easy system and more people have it meaning more people online.

Let me know what about you

MentalWarfare - October 29, 2015, 7:39 pm

PS4 is my main console.

Xbox one just and only for forza and nothing else.

Manolo - October 29, 2015, 7:39 pm

PS4, it has better graphics and I just love everything about it, PM me your PSN.

RainbowHentAi - October 29, 2015, 7:53 pm

While yes the PS4 has more people on, it really hasn't changed much since its launch, the Xbox One has changed significantly since its launch, because when it first came out it was horrible, now it's actually really good

I've definitely always been a fan of Playstation since way back in PS2 times. It might just be a nostalgia thing but I've never been able to get even remotely into Xbox to be honest.

Neither of these are good. I personally prefer the Wii over any gaming device.

None atm.

Xbox 360 all the way nigga!

PC not that fun never could even figure out how to play on PC without controller

Seife?r - October 30, 2015, 7:47 am

I prefer the xbox one, nothing to do with the interface, controller or anything like that, I just like the exclusives better than ps4's, mainly because i never had a ps3 so the exclusives that are sequels such as uncharted etc are not interesting to me because I don't want to play a game without playing the previous ones.

I prefer Xbox One but I've also owned a PS4. It all depends on what your friends play and what games you like. You really love Halo, then a Xbox One will be better for you. Although all games are basically shit on consoles (Battlefront running ~900p on PS4 and ~720p on One). I also grew up with Xbox Original and Xbox 360, all my friends play it so I have a Xbox One. Plus the controller is bigger which is a pro for me since I have big hands. Can't use a PS4 controller due to it's size.

But you can use whatever controller you want. I use an Xbox one controller on mine.

Indeed you can use any controller I am using a PS3 controller.

So your point is invalid or you're just to greedy:P

I used to be an xbox 360 user but once the xbox one came out I bought it. I had the xbox one for little over a week and sold it to get a ps4 instead.

Mr. Tycoon - November 1, 2015, 7:47 am

I have always been an xbox type person. I have the white xbox one, it's lush.

Sega Genesis is the best console ever imo.

Better than the Xbone and the Gaystation 4.
