Thread: [fluffy pool / omnicha.in - Account Locked?](#)

Seife?r - October 29, 2015, 7:59 pm

Hey HF

Just tried to log into my fluffy pool account and keep getting this message
"Unable to login: Account locked. Please Check your Email for instructions to unlock."

So then I check my email but I have not received any emails ? And i've checked spam as well before someone suggests that xD

Any one know whats going on?

That happens when your password is entered incorrectly multiple times.

PM me your pool username and I'll get it taken care of.
