So I posted a thread asking if I were to sell my RS account, what would the price be.

I got a PM from this guy saying he'd buy for 75\$.

Didn't even know if it was allowed or not, I think you need to be upgraded to sell but oh well.

Firstly, here's the PM.

Now, some reports.

As you can see, the name changes vanish after 6 months, but he had multiple skypes and made new ones.

I added him on Skype and told him we would not trade in PayPal as he had multiple scam reports open and so on, he agreed to pay in OSRS gold.

He then told me he had used zSerty as MM multiple times and told him to add me.

I kind of giggled here.

That's not even zSerty's skype as I have him added.

I told #PROBLEM that I asked for confirmation, he responded this then went away.

Atleast if even attempted to scam, you could use some proxy or VPN to make the secondary skype amirite?

So, if you're going to deal with him don't trade with PP and make him go first no matter what.

It could be him or it could be a thread. Either way good find. Also, you have to be ub3r to sell rs accounts on here.

Thanks.

I mostly believe it was him because the timing was too weird.
