Thread: [sql injection tutorial?](#)

deadfreak99 - October 30, 2015, 9:43 pm

Can someone please link me a tut on how to preform sql injections?

You could have easily searched [SQLi tut](#) and there's a lot of threads that'll pop up. Here's a few from that search and also some tutorials in [Premium Hacking Tutorials](#).

[\[Tutorial\] Basic MySQL Injection \[Beginner Friendly\]](#) by [Zer0Pwn](#)

[TUTORIAL - Basic MySQL injection \[UPDATED with BLIND SQLi\]](#) by [bckslsh](#).

[\[TUT\] basic sqli, string injection and waf bypassing](#) by ['Flareon](#)

These should help with what you're looking for. I also recommend reading this also.

[A treatise on SQLi](#) by [Judge Dredd](#)

Hope this helps. Good luck learning.

Thank's. I've been looking for a few better guides than what I had.

Goodluck OP.

I'm gonna have a go and guess you don't know SQL yet. Learning SQL Injection before learning SQL is like learning how to run before learning how to walk.

Just saying.
