Thread: [\[50% OFF\] King Of Gambling - Take your gambling to the next level.](#)

Kudayoru - October 31, 2015, 6:22 am

Hey, hey!

Are you tired of losing all your hard earned BTC on those gambling sites? Well stop that right now with the help of my newest ebook - King of Gambling. There are total of 6 different methods, well explained. The methods are both for SatoshiMines and PrimeDice. There also are 2 methods that doesn't need any investment!

(Oct 31, 2015 08:48 PM)Imperishable Wrote: [\[CITE\]](#) Here is my take on the ebook:

1. Originality: The method involves well known bitcoin gambling sites. Its the methods/strategies which the OP is selling here. I knew one of the strategies before but I am almost sure that most of the users would not.
2. Language: The language is simple although there is scope of improving the explanations a bit more. Seemed a bit rushed out ebook to me.
3. Effectiveness: I tried one the strategies and won 0.5 BTC then I became greedy and net profit dropped to 0.3 BTC when I stopped. It is gambling after all, the strategies increase the odds in your favor but you have to be careful. NEVER RISK MORE THAN YOU CAN AFFORD TO LOSE.

Overall, if you are interested in gambling it is a good deal for the price. You get to know a few strategies anyways.

He included pictures and some stats. However, I feel that there should have been more details especially if someone just started gambling and using the site included in the ebook. Overall, I believe that this ebook has potential and can help you decrease a lot of risk in gambling with btc if you follow the instructions provided.

Good luck with sales. ?

It is fine, just to clarify things, are we paying for the compilation or for the "unsaturated" methods? Because alot of method are known and still work.?

Can anything but exploits get saturated in gambling? I don't think so. There are 2 methods that are well know without ivestment, and then there are methods that made me profit. You might know them, and you might not. I think that atleast one of them wont be known for you.

Too bad that I've made Like 6 times my investment already. Cashed out 50Euro yesterday, now back to 20 from 5.
