Thread: [Admin merged my two accounts to the wrong username.](#)

Extrorz - October 31, 2015, 7:49 am

I got my two accounts merged but in to the wrong username, i wanted it to my other accounts name. Could admin change on that? ?

I can't upgrade because of my shitty -rep. Thats why i want them to delete my threads or delete this account.. omg

You are so fucking annoying. YOU WONT GET RID OF THAT - REP. Upgrade if you want a different username if not then stop making these stupid threads or you will get even more negative rep.

OP isn't a very smart person is he? Alright OP, you can't change any moves made by admins. Simple

Or you could stop posting crap you dont want here. You are complaining about things that are your own fault.

1)You had 2 accounts ? They got merged and you dont have any say on the username.

2)You are repeatedly complaining that this username is your gamertag and you dont want people googling it and thinking your a "hacker". If anybody did google your username and read any of your threads, they wouldnt think hacker but they would think script kiddie.

3)You say you didnt read the rules and now you want admins to delete your threads because they make you look bad? Have you still not read the rules? Asking an admin to delete your posts is ALSO AGAINST THE RULES.

4) GET LOST

If you wanna change your username. Upgrade to L33T.

There is no way that the Admin will change your username on request.

You're an idiot because you discarded your other accounts because of bad rep and then PMed me about merging. I'm allowing you to stay right now, use your current ac. Wish all multiple accounters start PMing me like you. LOL.
