Go for it ?

EDIT: I also need a twitter avatar. Whoever can make a 400x400 image with a big purple M and the same color background as the logo. The M should take up about 60-70% of the space in the avatar. Anyone who does this i'll pay \$2 for it.

Like it? I tried to smoothen the edges of the M, If you need any other adjustments, tell me.

Yous - November 1, 2015, 2:37 pm

The M was fine before. Also neither of you guys have the text correct lol.

If one of you want to take a stab at this I also need that done:

I appreciate the attempts of you and the other 2 users however for some reason nobody has come even close to the original text.

A user on HF previously did it for me and he has been inactive for 2 months.

Gowther - November 1, 2015, 3:00 pm
