Thread: [Free Recording Software?](#)

MCFan721 - November 2, 2015, 9:02 pm

I am looking to play Minecraft.

I want small files.

Atleast let me have 40FPS

720P or 1080P

I wanna record in 30fps, 60fps and 120fps(yes that is possible)

I have a shit laptop(its a dell latitude e6420)

Open Broadcaster Software.

Ow?s - November 2, 2015, 9:11 pm

I'd recommend Bandicam, seems to get the job done for me.

Free studio has a good screen recorder as well

Marxist - November 2, 2015, 11:22 pm

OP Could always use Windows' new native DVR recording too lol
