Thread: [KMZ's ULTRA USB HACKS V2.0 \[Kali linux booting system\]](#)

kmz22222 - November 3, 2015, 1:05 pm

Note this is a hack forum's exclusive.

Posted at:11-03-2015, 12:52 PM

Any other thread like this is a copy of my thread.

=====

Previous versions:

v1.0: <https://hackforums.net/showthread.php?tid=5002325>

v1.5: <https://hackforums.net/showthread.php?tid=5006891>

=====

This version adds:

-Kali linux system Bootable from USB

=====

Tutorial:

1-Format your usb to FAT 32

2-Download a kali linux iso from www.kali.org

3-Download this

<http://www.pendrivelinux.com/downloads/Universal-USB-Installer/Universal-USB-Installer-1.9.6.2.exe>

4-Open it and choose kali linux

[img]<http://img.wonderhowto.com/img/original/52/79/63568762467278/0/635687624672785279.jpg>[/img]

5-Browse for your kali linux iso and then you should end up with this:

[img]<http://img.wonderhowto.com/img/original/06/92/63568763049966/0/635687630499660692.jpg>[/img]

6-Choose your flash drive and then click create.

=====

Kali linux is now bootable on your usb.

To run it insert the usb into the computer,open the computer click F12 and you should be able to boot and stuff. [You can find a tutorial on google on how to boot things,if you have brain.exe you should be able to do it]

=====

Benefits:

-Helpful system

-Includes many hacking tools

-Small size [Only 1.5 GB]

-Cool personalization

=====

It took me about 5 minutes making this tutorial.

It can take you less than 1 minute saying "Thanks" In a reply.
