AnonMonnik - November 12, 2015, 2:37 am

He is dropshipping that is why he can't show photo's/proof. nothing wrong with that.
We just have to wait for someone to verify they recieved it.

hKRASS - November 12, 2015, 2:58 am

What about some more technical Infos, at least what kind of batteries are used ?! There are big differences between those boards.
Thanks in advance

B FOR BADASS - November 12, 2015, 3:07 am

They are too expensive man else I could have bought them.

GLWS OP, even though you don't wanna use MM.

I'm pretty sure I know your method tho.

OP does not want to use a MM nor can provide a picture of his stock.

He probably buys (Dropshipping)them from Ebay or Alibaba and sells them higher

I sell the good ones for €600+, with speakers and such, and I must say this is a good price
The price is actually to good to be true.

He's had plenty of time. If you read my thread you'll see.

We were pming, and I received replies instantly until I paid. The minute I paid, he disappeard.

Not opening a deal dispute yet, in case it was a coincident. But I'll wait 12-24 hours.

You must be mentally ill to have gone first to this kid, scam was obvious, I hope I'm wrong.

Visualize - November 12, 2015, 12:18 pm

We made a deal where I would just pay him for shipping and then once I receive it I would pay the \$150. He did PM me asking for more money for shipping, which isn't out of the ordinary because these things are hella heavy. But I am going to see if he can show me a receipt that says the price, and I offered I will pay the total cost + shipping after I recieve it. Theres no way I am going to give him more money without any for sure proof.

Let say he is getting his items from Aliexpress, what's wrong with putting a price mark for a profit (like every business person will)?

If he is legit and does have the boards on hand

Your paying for;

- Quick delivery. You don't have to wait for months.
- Aliexpress/Alibaba is full of scammers. You don't have to filter through them to find a legit one.
- You can purchase 1 unit unlike wholesalers which will require you to purchase atleast 10, 100, 1000 units.

It's simple common sense and basic marketing.

poild - November 12, 2015, 5:09 pm

Alibaba charged \$100 to get to the US too, remember that...

Jerk Store - November 12, 2015, 5:26 pm

Some dumbass niggas think this wasnt a scam, SMH.

anatho - November 12, 2015, 6:29 pm

The item from Aliexpress is actually almost \$300 incl shipping, hecsaid he get it for 50, even if you buy 1000 pieces you won't get it for 50 from any seller on Aliexpress

Enzio - November 12, 2015, 8:24 pm

You guys are all fucking dumb if you bought from him.

It's an obvious scam

To much time lol? I said i wanted to take bulk which was an order of 10+ something isnt right here buddy idk why you would turn down a mm when you will be getting 1k+ if legit lol ?

anatho - November 13, 2015, 6:27 am

The fact that somebody is reselling/dropshipping/even SEing does never mean he cannot post a picture of his product. If he does not get it to his house but it is directly shipped from the seller then he can post pics from sellers website. Ok this is no proof he can actually deliver but at least one could see the product, because I highly doubt it is the same as io hawk, from design maybe but never from specs.

also nobody till now received his product, not even tracking. also he did not even say where it is shipped from. EU is big. I definitely will not buy till someone posts he got it and posts an actual photo of the item.
