Thread: [Restoring my previous account](#)

Rhynorater. - November 6, 2015, 7:21 pm

Hello again HackForms!

It's been a while! Such a long while that verizon.net removed my email address from existence thus rendering my account "Rhynorater." unrecoverable. Is there anything I can do about this? I paid for Ub3r so I'd love to have it back.

Thanks!

Good to be back again.

Rhynorater.

If this was indeed an SE attempt then I actually fell for this, but that's good. Coincidentally I have to do a social engineering presentation as part of my degree assessments. This thread actually helped me a bit. Thanks Krew.

Staff feel free to delete my post if you think it's off topic

Edit: Just realized how silly am I.
