Thread: [Creating Custom Logos or any type of Photoshop Project for all!](#)

Garfield1001 - November 6, 2015, 10:08 pm

I have been playing around with Photoshop for about 3 years, nothing really serious. I took a couple of classes on it and want to try it out.

This is by no means professional or expert work.

I just want to practice my Photoshop skills, so that I can eventually start offering my services locally.

I know how to do a lot of things in Photoshop such as create logos, restoring old photos or just creating random images.

Go ahead and request away!

PM me OR post on the thread, doesn't matter to me.

Once again, do not expect HIGH QUALITY work. Also, I ask for nothing in return just feedback. Nothing that will crush my dreams though, please lol.

Thanks!

If you can make a logo for the the letter 'C' or the name 'Chase' that would be dope!

Or maybe something with the feel of "rich, bold, gold" etc..

Uhhh it's late and I sort of made a banner, I'm not sure if this is exactly what you were looking for but i'd like to always make something else! Like if you want it just as a letter, or a small logo. I should have asked for specifics haha.

This is my first every wallpaper, I do not know if it fits your standards, but if you'd like me to try again let me know. I can try other ideas I have.

Hey could you do a simple logo, Something like an atom and a rocket combined, simple colors and "icon" looking, Might use this for a project so keep the PSD and we might be able to work something out when the service goes live.

Thanks for the service and best of luck in your Photoshopping adventures!

Here is your logo, I still have the PSD and everything. I used the Rocket you requested, if something needs to be changed I can do it or hand you the PSD.

WARNING The image is rather big, it is about 7 by 5 inches, if wanted I could work on the edges a

little bit more, but yeah there ya go!

Hey bud,

I desperately need help, can you make my CV and cover letter attractive using PSD. I saw these CVs on the net but have no idea on how to use PSD templates. Searching for internship. No luck so far :(
