Anyway, looks good. If you are giving out vouch copies lmk ;)Its quite hard to designate a non biased percentage on the rate of success, but at this point the high majority have had successful attempts at this method

also to respond to the Vouch Copy, we are not handing any out at the moment but you will also be added to the list :)

Appologies for that reply from hexuter, at this current time a vouch copy has been dispatched and we are awaiting review.

Due to this reason we wont be handling another one until this one is complete
I have added you to the list and will contact you when your time is here, Discounted vouch copies are offered at all times if you are interested

You should change that 98% success rate, there is no methods with 98% success rate. You wouldnt sell this so cheap then.. false false false

Not trying to sale trash but change it :)

And on your signature why is there review by stalker like "simple, works good" when he hasnt even got vouch copy? :D

And.

There is no reviews from the eBook itself..

If you want I can review it. 1,5 years experience from this stuff :)

Abducted - November 14, 2015, 2:31 am

Hello guys. I have recently bought the ebook and made a preview.

GRAMMAR [10/10]

Easy to read, not at least any mistake seen by me. I guess the author is a fluent english speaker.

METHOD [9/10]

Seems like it was leaked once, but what we see in this ebook is this really upgraded method.
Everything is VERY detailed

SUPPORT [9/10]

You always get support on Skype and PM. You do also get free crypting service for executables you use in this method, yet replies takes few more minutes sometimes.

OVERALL [9/10]

I actually love this ebook and I recommend to get it for everyone who haven't got it yet.

Shoelaces - November 16, 2015, 6:38 pm

Shoelace's Review:

I have received a vouch copy for this E-Book. I am no way affiliated with the seller and this is my personal opinion.

Originality: 6 out of 10

The E-book has a total of 7 pages that pertain to CS:GO spreading. I already knew the method but it's changed in a way that gets your more users without being saturated. Silent's twist is creative as I never even thought of it. Also there is so many people on steam playing CS this can't be saturated.

Quality of content : 9 out of 10

After reading through the 7 pages it is very well laid out and barely any errors. It was very easy to understand.

Visual Appearance : 8.5 out of 10

It is visually pleasing to look at to me and I could easily read it.

Requirements:

All the requirements needed to do this most people already have. The only thing that would cost money is your stealer/rat and additional OPTIONAL things you might want to pay for but not needed.

My personal Score: 7.5 out of 10

The more time you put into this the more results you get, I can guarantee that. I rated it a 7.5 because like I said I already knew the method but it has some nice twists to do it that I never thought of. I can honestly say if you try this you will more than likely succeed. It is pretty much fool proof and definitely worth the small amount of money. Using this you can make 10x + what it costs.

BUY :) <3

BUY :) <3Thanks buddy!

Hopy you enjoyed it!

To all future users of account matrix id like to note that we do not offer a refund if you are unable to carry out the method, previously we have but due to the recent leak of this method & legal implications we have been forced to ensure that you are aware we do not offer a refund if it is on your lack of resources that you cannot carry out this method.

The method requires little to no investment but we still have had a dispute over paypal with reasoning of "cannot afford to carry out the method"

Other then that if we do deem you worthy of a refund we will allocate you it!!!

Although you should not need it..
