I don't really like it.

I just don't think it's a good mix to be honest.

Have a nice day! ?

I dont think it's as unlikable as the people make it seem to be in this thread.

Wow, this is a really nice picture, I love it!

Personally, I think the transition from face to stars is a bit too intense.

Never the less, it is still a cool picture. Nice job.

I love the girl with the stars as background, I just don't really enjoy looking at the grey-ish background where she is looking at, but that's my opinion!

It's a really nice design tho ?
