Thread: [Keeping Anonymous](#)

Dervishorc2 - November 8, 2015, 6:37 am

I am fairly new to the whole hacking thing and i would be grateful if someone helped me and taught me how to keep myself low ?

.complex - November 8, 2015, 8:47 am

The first thing you would want to do is develop a persona, and that would be having a fake social media account and develop it further in that way when the heat drops on you, your fake persona takes it for you. Dont reveal your plans to anyone, dont reveal your operational details, and most of all never trust anyone.

SIM-1073426 - November 8, 2015, 8:48 am

Keeping yourself low is pretty simple, this can be done with crawling or laying down.

Hope I helped.
