UnknownSir - November 8, 2015, 8:56 am

Hi,

Some of you may know me as Branzehh on YouTube.

Looking for ideas for my next YouTube banner Template?

Once I see a few Ideas I will start designing and have one uploaded quite soon ?

Look forward to replies, thanks! ?

Take two objects you really like or have/use. Then put them on your wallpaper beside your logo/name. I think it would be pretty cool.

I'd use some 2-D logos/images. Possibly a 2-D looking font.
