Hi guys!

In this mini-tutorial I will show you how to get those free bitcoins with your PHONE!
You can even spend them in the same app! (Giftcards, Paypal, Games and more!)

1. Get your phone.
2. Go to this link: <http://goo.gl/HHoks3>
3. Download the app.
4. Sign up with your Xapo account.
5. Download apps or spin the wheel to get satoshis.

There is also a trick!!!

Keep pressing SPIN instead of claim, so you can keep spinning to get the JACKPOT without waiting 30 minutes!

this is not easy bitcoins by any means. I have been spinning for 10 minutes, no jackpot.

also the jackpot is literally only 1600 satoshi, which is less than 1 penny. This shit is not worth it at all.

Deceptive title OP.
