SuperWontonMan - November 9, 2015, 4:58 pm

Would you be able to get Canadian PSN cards?

Hey, are you able to get any of these? <https://hackforums.net/showthread.php?tid=5051977>

Not trying to hate, but you say you have these from birthdays or whatever.

" TOS: 1. Orders take 24-48 hours. "

People are paying with BTC, so why would you need 24-48 hours to send a code? Normally that is only done when someone is carding the codes..

No offense, not trying to ruin the sales but.. just doesn't add up man.

No problem, I understand. I run a business 8am-8pm every day. I often don't have the time in the day to sit and do a deal with someone and I'm often at my office working. I can guarantee these aren't carded.

Not sales-trashing or anything but so many people "guarantee" that things they sell aren't carded, next thing you know 2-3 weeks later feds pop up at your buyer's door... Just wondering maybe you can show us some type of proof that these are legitly obtained, then I might be interested.

If you can prove that these are legally obtained, I would be interested in purchasing smashburger :)
