you need to know that

i already said it before to owner of kik:scumbag

when you see an account in your checker and you didnt claim it you cant say i turboed it lol

and about the 45k follower account which you claimed he has it

i got this username in an inactive account i saw no 45k in that account

do you think if anyone owns an account like this one wouldnt fully secure it !!

came to you offering to sell your @'s for much higher prices then you could ever sell for. You denied, big deal. All of your @'s are jacked, which is fine. But the fact that you have to LIE to people and say they arent is what bothers me. Go back to your arab forum where you can lie to people without getting caught.

He is selling @Night right now, he claims it isnt jacked or trademarked.

On 11/15/15, at 5:52 PM, KiNg MajEsty wrote:

The OG account to @Night is <https://instagram.com/nighbdbbd/>

The email on OG @Night is f*****d@hotmail.com

The OG email before it was jacked was a completely diffrent email, and if you go back to some of his accounts they have that matching email.

I can show this for numerous accounts.

You can take screenshots of your convos all you want, this isnt about me and proves nothing.
