Mr. Noir - November 10, 2015, 11:12 am

Are you aware of what an exploit is? I don't think so.

If you think this is exploit, let me know and I'll take a look. You don't need to send it over, just show it thru tv or something.

I'm 99,984882945888% sure it's not what you claim it is. ?

Snickers??A?K?R - November 15, 2015, 5:15 am

Haha I promise you don't have the exploit

Wireless Network - November 15, 2015, 5:29 am

So, you're basically getting any item for free? :O

Snickers??A?K?R - November 15, 2015, 5:33 am

Any item on the website aliexpress.com

Yes

BreadMaker - November 15, 2015, 5:35 am

Willing to pay for this method if you want to share? :)

Snickers??A?K?R - November 15, 2015, 5:35 am

you can pm me and see what we can do

Wireless Network - November 15, 2015, 5:36 am

Yes

Instead of selling it here, I would report it to them. (if they pay)

Ask them if they have bug bounty program or something and they maybe get you some serious \$\$.
(but first get 3d printer :D)

well the thing is most of these sellers and customer support is not very fluent in English
I tried to ask before
the response was

'how we can help'

me - i just want to let you know i have a vulnerability that allows me to get any products

'payment makes product'

me - no an exploit

'we are sorry but payment is the only option'

me -

ICUP - November 15, 2015, 2:59 pm

3 months.. later, still no item.

Buffy Summers - November 15, 2015, 3:00 pm

This looks awesome. If you ever decide to release it, I will gladly write a detailed review of it. That's if you give out a vouch copy, of course. Either way -- best of luck!

KemiBRAH - November 16, 2015, 4:17 am

inspect element lol?

i think ages ago, and I mean ages ago, there used to be a paypal exploit where users could use something similar to inspect element to change prices of items on dodgy shops that wouldn't check what people paid for

dreexy - November 16, 2015, 9:31 pm

Could you explain me how can I do this ?

asm-99 - November 18, 2015, 1:54 pm

Thats easy, but only work in some websites.

Try in your local stores, and with that method pay with paypal and change the value to 0,01c....

And pick up the item with your payment confirmation :)

Bloodpulse - November 19, 2015, 2:02 pm

a e o n - November 19, 2015, 3:21 pm

purchasehacker - November 19, 2015, 5:32 pm

I am interested in knowing how to hack aliexpress even if it's not free

Ramnsx - November 19, 2015, 7:58 pm

Sell AliExpress items for 10% price.

Make a bank!

elisha13 - November 20, 2015, 12:36 am

I'd like to know this too if you would like to share OP.

AnonymousBuffalo - November 20, 2015, 2:35 am

Hard to trust as a big online market like that would have got a pentester to test the website. If you are legit then good job to you

Vicellus Drum - November 23, 2015, 9:09 pm
