First of all! ALERT! There are more then 1 method in this eBook! So this is a great deal!

Originality: 9/10

The methods (yes multiple) that are included within this eBook is absolutely amazing! I have never seen or heard about it before to be honest. So it isn't saturated at all and anybody can do it with the littlest amount of work or skill needed. This method is very original!

Grammar: 8.5/10

I didn't notice any major misspelling of words. However I did notice the footer was sometimes a bit fucked up, but those little things don't even make it hard to read. But really, like someone cares about the footer? Meh, I would go for the text and not the footer. It was written for an beginner computer user skilled level so its pretty easy to read and understand so you can start doing the methods and earning within an hour after they bought the eBook!!

Ease of Use: 9/10

These methods are extremely easy! When they say anybody can do it that is true. Plus these methods are working everywhere so not only can anybody use these methods but they can use it anywhere they are. When a method is this easy to earn with it is always good to use and understand for your knowledge of earning income online!! With this method being insanely easy to use also comes how extremely fast the earnings are as well! So if you are looking for a good easy method that actually works and will earn you back your money and more this is the eBook for you!

Layout/Design 7.5/10

The eBook layout is very simple which is always great for one reason. That reason is if its simple then its easy for everyone to be able to read and use. With this simple layout though they designed it in the way that it is a step by step guide so all you have to do is read exactly what it tells you to do and then you will start earning, its as easy as that! The eBook layout is perfect for all people that have the beginners level for the computer, as well so anybody can read it and understand what it is asking you to do.

Overall: 8.8/10

I am giving this eBook an high rating of 8.8/10 for one main reason. I know eBooks have a bad reputation because most of them end up promising extremely insane results that never happen for the buyers. But The Money Flood is different it is one of those eBooks. So overall if you are just looking to make some good money like it says you can easily make \$500+ each month but in my opinion that is what you can make when you first start and if you keep using the method I think you could double or even triple those profits to possibly over \$2000+ each month!! Great eBook and Great methods that actually works for once!

E-book : The Money Flood

Number of pages : 99

Method :8.5/10

This e-book have potential to work good.It have good contents and clear you all the points and doubts which you suffer after buying the e-book but the OP really spend his time and wrote a good e-book which clears all things to do.So even a newbie can do it properly.

Grammar :9/10

Hmm I did not see any grammatical mistake ,which make another + point for the e-book.

Layout : 7/10

E-book is not designed in a fancy way but it focuses main on the method which make the e-book more helpful for the buyer to impliment the method correctly.

Overall : 8/10

This e-book is have a good potential to double even triple what you paid for but it is not a one night success you have to give some time to the method and you will be able to make good money when you understand how it works.E-book worth what you paid for.

The originality of this method I have seen, it's infact arrow's, but if you have looked up arrow he's one of the highest trusted yet reputable members on the forums, Unspecific has some real money making methods on him, big coin to this!

There's too various methods to choose from! If you don't earn money from a previous one then you obviously aren't doing it right, although these methods do take time to setup and get going, just remember, money isn't free. YOU HAVE TO EARN IT! This method shows you exactly how to do so and can benefit you in making an outstanding profit. This ebook is big, although that isn't bad, it goes into extreme detail on the wrong and rights of this, it clearly goes through how to do it right not some piece of shit ebook that costs 70\$ and it states "Setup ebay account, buy shit from china, sell"

Pros - There's many methods to choose from

- You're GARUNTEED to earn if you do it right as Unspecific has clearly explained.

Cons - The time required to setup these methods is fairly time consuming but, if you really are gain on making money. That shouldn't be a problem.

- Method's are long.

Thank you for the chance of a vouch copy and GLWS Sir!

Here is my take on the book Please note that I am going to write an honest review irrespective of the fact that it was a vouch copy:

Originality: I have been in the online marketing business for around 5 years now. There is no method in this ebook which I did not know. However in spite of that I learned many useful tips to improve my existing knowledge. Unless you have really been into this field for long, it is not possible for you to know all the methods.

Explanations: This ebook is really well thought out and an extensive one to explain the methods. Though at times it feels that author is trying to repeat the same thing again and again. Overall it contains quite detailed content.

Effectiveness: This is the most important part. I am straightaway going to say that this ebook won't earn you a dime if you are not patient or determined. I have seen numerous people start working on a method and then midway abandoning it if it does not works for them. The methods given are 100% legal and real, the only condition is you have to be patient and keep working on it. That said, if you do some initial hard work, it is going to be a long way down the road. Personally I have tried a few and planned to launch another few before even getting this ebook.

Overall: My suggestion to customers: you should buy this if you are ready for the real ways of getting a steady income online (not the temporary quick bucks ones which do not run for long). This involves **HARDWORK**, do not buy if you are not ready for it. Author promises \$500 a month and the way he says it, sounds too easy. However it is better said than done. working 1 hr a day would probably won't get you earning until a month, however after that it should be easy. Staying focused for that 1 month is important.
