Thread: [Authentic Handwritten Female Font \(Heather Script\)](#)

Wired? - November 11, 2015, 6:15 pm

This is a great font for many applications. You could use it for authentic fansigns, ewhoring, or any other graphic that may require a realistic handwritten female font.

This font was handwritten by my sister, so it is 100% authentic.

Use it for whatever, just make sure not to claim the font as your own, and give credit where needed.

That's great, definitely useful for ewhoring like someone else has previously stated.

Thanks for providing us with the original resource.
