Firstly, you spelled it wrong

Secondly, <http://kissanime.to/Anime/Boruto-Naruto-the-Movie/CAM-LQ?id=118707>

Thirdly, there's another thread on this, how about you actually not be lazy and look for it?

Finally, no idea when it'll be dubbed. The sub JUST came out so give it time...

I'm not really into Naruto myself but I can tell you something from my experience with anime movies.

If the movie just came out a few weeks ago, you're lucky there are subbed cam-rips already. The only way you may get a non cam-rip is if they officially stream the movie on some japanese TV channel, online, or someone leaks it (nearly impossible). Either that or wait till they sell the BD/DVD.

Just watched a cam link. Watching it through a camera wasnt that bad, and movie was good too.

Glad you enjoyed it! I liked the beginning especially when Sasuke used Amenotejikara (his

rinnegan teleportation) when his head was about to get chopped off.

Yeah really cool movie. I liked "The Last" but i wasn't a fan of all the other ones. I'm also surprised i didn't see the Amaterasu used against momoshiki.
