Yeah don't worry about it i'm not buying it from a guy who explodes over a post and goes insane and starts harass me,

good luck in sales I guess, you need to chill thought

I explode because it's kids like you that shit post "ALL EBOOKS ARE SCAMZ" and kill the market that hf has not only for the sellers but for the market itself. Thats just one of many things that posts like "why you selling for so low if you make xxxx a week" like what the fuck kind of question is that? This is america, I'm selling it because fuck you that's why. I don't need to stoop and provide reasons you can't understand to you. It'd be a waste of clicks on my keyboard.

He probably meant, if he puts in his effort and does everything it says but doesn't make money off it.

If you have accepted the terms and conditions which he would've had to do anyway upon purchasing the method, there's not much you can do. There is no way you can't earn if you honest to God put in the work and effort and maintenance that the accounts require to be successful.
