Thread: [\[AUTOBUY\] \\$1 for RDP! \[LIMITED TIME\]](#)

aph3x - November 15, 2015, 10:01 am

My old selling theard > <https://hackforums.net/showthread.php?tid=5052685>

Testing a new way to sell RDPS with payivy,I added my stock and sells it for only \$1! (Country & admin / normal user MIX)

Basically want to test out payivy so buy while you can,the prices would be different when my shop will be lunched.

<https://payivy.com/v/1e028>

ALL of the RDPS in stock added to the payivy autobuy are tested every 24 hours and will be kept that way to make sure you get the RDP right away.

if from some reason your RDP isnt working after buying,kidnly pme / or add me on skype (iamaph3x) and I will replace it for you :)
