Hi guys;

Today i want to post some reviews about this guy Drays.

First of all; he is really fucking master code of sentry MBA. First time i just need only the config then after some deal and with his help; we already and working on project really perfect.sometimes he was disappear then i was worry he is scam me money. But he was not and proven he is professional. come back to say sorry and did all the rest, we was did done with some average (not much but not less) amount (sorry they didn't allow for me post pic; will update later)

So no reason make you worry once made the deal with this awesome guy.

Once again; thanks too much my partner Drays.
