Are you into investing into a Minecraft server?

I'm open to anything, but my first impression is the following:

*High Competition

*High Cost Of Advertisement on less return than a Rsps(In my opinion)

*I have very little knowledge of Minecraft as I've never played it or a Minecraft Private server.

I appreciate u asking but I don't believe I would be a proper partner for you but I wish you the best of luck.

Well, we aren't looking for you to do works involving Minecraft, except advertising and investment. I have a partner who's willing to put work into this server, and I believe I can help advertise to make

this a big server.

I have a group that's doing a Minecraft OG name sniper that's web-based (unlike the rest of the competition that is client-based and is based off of Internet speed). Our servers will be located near Mojang's servers for maximum performance. PM me if you're interested for more details! We'd love for you to provide traffic as well as maybe investing some money in return for a % of profit.

You are going have to provide a lot of proof with test snipes to showcase that your sniper can beat the competition.

It is always good to have a whole informative presentation of some sorts to show all your ideas and for people to get a better idea what you are doing.

I do that for all my ideas including minecraft server ideas.

Name sniping implies stealing a name from someone else to sell it & profit which falls under blackhat certainly :p which is not for me.

I could be totally wrong, I dont know anything about minecraft as I said in the above post.

I could be totally wrong, I dont know anything about minecraft as I said in the above post. that is true, the last biggest website that was selling snipes made over \$10,000 I believe in about 8 months? They said they were contacted by mojang and they made them shut it down which is why people are now creating them to profit.

I'm looking for promoters for my forum.

We have currently already another site which gets 550K+ Unique Users per month.

I'm looking for someone that could take care of advertising everything on social media networks. (Uploading Youtube videos etc.)

Thanks

Menacing - November 16, 2015, 5:34 am

Hey its me again haha we keep running into each other :P , not sure if you remember.

But anyways, I wanted to ask about the forums that you have rep on.

Are they solely focused on runescape? Or are they popular with other games as well? Mainly referring to League of Legends

SearchOptimizer - January 27, 2016, 1:09 am

Are you still looking for anything?

Auxil - January 27, 2016, 2:00 am

I do a lot of import/export business via ecommerce.

If you want a stake in my new company, now is the time. I have a lot of experience selling real, tangible, private-label products via ecommerce.

I don't have much money for an inventory, but that is where you come in.

If you need more info, PM me. I can provide anything you need.

Kenjataimu - January 27, 2016, 3:24 am

How do you feel about investing in and being apart of creating projects/businesses out of undeveloped ideas?

Currently working full time and taking college courses in project management (will be able to take the exam in late February)
and going to receive my CAPM certificate around the same time.

I have a few ideas that have great potential, but are bigger than a RSPS, forum, etc.
This would take commitment and more funds either through an angel investor or crowdfunding.
I have about \$2000-\$3000 to drop into this also and an alright contact list.

Let me know if this interests you and we can talk.

?Hero - January 27, 2016, 3:25 am

ill bump this looking to hear of potential companys/ideas.

Reece Morgan - April 21, 2016, 4:36 pm

You shouldn't limit your options to L33T/UB3R members, I personally find them to be much worse partners than un-upgraded members (as in, they understand that their reputation on this forum means nothing).

topdog77 - April 21, 2016, 8:38 pm

I think it's right up your alley, since your skills involve growing a website, I think this could be a good asset and both of our skillsets will flow perfectly.

I added you on skype, look forward to chatting with you further.

Kuso - May 2, 2016, 7:31 pm

Interesting. Net profit of that much and yet you stoop to this level looking for work? You can do so much more for yourself if you are earning as much as you've stated.

The thread is old, rsgoldfund is going to break double those sales this year easily.

You never know when you might stumble across something great, I'm willing to put the 5 seconds in a day to bump to have that chance.

DuguWudi - May 3, 2016, 3:12 am

So OP, how much projects and total sum have you invested so far?

Any profit return yet?

SIM-2263652 - May 3, 2016, 7:00 am

I may have something interesting. PM'd you.

topdog77 - May 3, 2016, 5:30 pm

Any profit return yet?

\$295,000 in sales last year, Already did nearly that this year, easily on track to \$600,000+ and \$1,250-\$2,000 in sales a day.

Which I can prove.

Margins of 15-30% depending on the product, last years total margins were like 26.3% or something.
