Thread: [\[FREE\] Complete Guide To CPA - Starting Up! \[SPOONFEED\]](#)

Dumber - November 16, 2015, 11:57 pm

--Starting Up--

--> Thanks A Lot For Clicking on This Thread! Leave feedback and suggestion below & Make Sure to Follow All Information, You can make a great deal of money from it,

Step 1.

Getting Accepted

One of the biggest hurdles for new comers is getting approved by CPA networks.

I'm going to reveal how you can get approved by the traditional CPA networks and how you can use a new CPA network that doesn't require you to be approved. Ok so the first part of getting approved is obviously you

need to go ahead and sign up to some of the networks.

Now here's a list of a few of the popular CPA networks:

- 1) <https://peerfly.com/>
- 2) <http://maxbounty.com/>
- 3) <http://neverblue.com>
- 4) <http://clickbooth.com>
- 5) <http://mundomedia.com>

Quote:Ok so once you've signed up the next thing todo is usually they'll send you an tell you that your profile is under review, If You Need to get accepted FAST, QUICK & BUILD TRUST YOU NEED TO CALL THEM....

If you call them up and explain how you will be driving traffic with mainly paid and free traffic sources they will usually approve you within a few hours of calling them.

However if you don't want to go through the process of calling up someone then you can stick to the non-approval CPA network being

<http://clicksure.com>

So these guys don't require any approval you simply register for a free affiliate/CPA account and you're ready for step 2.

Step 2.

Choosing a High Paying Niche

The key to making a lot of money with CPA is choosing a niche that actually pays you a lot per sale/lead. Now there are a bunch of different niches that you could potentially go into.

But I would recommend sticking to these 3

niches as the CPA payout is a lot higher which means you make a lot more money.

So the 3 niches to go into are :

1) Health/Fitness/Weight Loss

2) Make Money Online

3) Dating Niche

If you want to validate that these niches are actually commercially viable you just need to do a Google search and you'll see a bunch of ads on the right hand side of the page.

Another way to validate the markets is to either look at potential views on YouTube for these niches or head over to ClickBank and look at the popular products that are being sold most will be in these 3 niches.

For example here we have a YouTube video with over 3 million views now that's telling you something. Only 1 video with 3 million views means this particular is HOT!

So as you can this weight loss niche video on belly fat has close 10 million views now do you think people in this market have a problem? More important do you think they're willing to take action and buy a solution to solve their problem?

Step 3.

How To Choose A High Converting CPA Offer

So there's 2 ways of finding high converting CPA offers depending which network you decide to work with.

The traditional CPA network will have a list of offers. You'll be able to see the stats for all the offers on that network. You'll be able to see conversion stats and Earnings Per Click stats and a lot more.

So for example if out every 100 visitors 30 people are taking an action that would result in a 30% conversion rate.

Anything from 10% and higher is considered good and is something I wouldn't mind personally promoting. Anything that has a conversion rate less than 10% is usually something I stay away from.

Also another key factor to bear in mind is EPC or Earnings Per Click which is determined by the (CPA payout rate multiplied by conversions you get)/100

For example say you were getting paid \$5 CPA and you made 10 conversions this how it would look

$(\$5 \times 10 = 50) / 100 \text{ EPC} = \$0.50$

I like to stay away from anything earning me less \$1 per click but then again it's all about R.O.I and how much you're investing to make that money.

If you decided to go for the Clicksure network unfortunately they don't actually share conversions and EPC stats but what they do have is something called Top Offers:

Top Offers actually makes it alot easier for you to choose a high paying, high converting CPA Offer. Usually these Top Offers are in this section because the convert extremely well and alot of marketers are making good money with them.

So you can just pick any one of the top 10 offers and you're good to start driving traffic.

Quote: To Get More Conversions, MAKE SURE TO TRY OFFER YOURSELF, It shows how easily your offers can be completed, Most of Internet Users are already Aware of these stuff, So make your CPA Offer Shorter, SHORTER & FASTER THE BETTER
