Thread: [Free "Private Datacenter" Cloud Servers to learn \[FREE RDP/VPS\]](#)

.Satellite. - November 16, 2015, 5:03 pm

Hey guys, I am here today to tell you how to get a FREE "Private Datacenter" Cloud Server. This method is truly unique. I have not seen anything like it on HF. Send me a PM to receive this.

These servers are to learn how to use a "Private Datacenter/Cloud Environment" and learn how to use different operating systems.

Non-Upgraded User Requirements (These do not apply if you are L33t/Ub3r):

800+ Posts

50+ Positive Rep

This is not Kili, or some free trial server. This is a FULL-FLEDGED server host.

EDIT: This no longer works.

I'd send this via PM, to avoid the leachers, just send it to people whom request it via PM! Just an fyi so you at least get a thank you and people can provide their actual feedback :)

I also suggest to use PM so that it is not abused as it is for learning only. Thx

Wow. Insulting other HF members is not in the spirit of the community. You are blacklisted from receiving this method from me.
