Leave a neut with a link to this thread. That's what 'Rules' suggest. Follow the rules and delete your comment of asking people to leave neg reps coz that is not allowed as per HF rules and it might get you in trouble.

I can say from our conversation, Optimised's a nice guy. You have problems when its roses.

Griev?us - November 17, 2015, 8:13 am

Not even going to bother with this, OP got limited and half the time didn't even listen to me during the mentoring sessions. It's not my fault if he won't listen to me. I'm not going to make anymore posts as it's just going to be people hopping on the bandwagon.

Me and Flacko don't have issues with the method we provided him and we will gladly show proof it works. That being said, live streams were given and profits were shown from this method on there.

Again, it's not my fault if OP uses shitty saturated packs (I gave him a list of several unsaturated ones)

Take optimized's name off this as-well as he has nothing to do with it but I can assure you that he can vouch that you're using a saturated pack after I show him the pictures you have posted up. ?

Bullshit even more. Optimized put me in his ignore list and ignored me on Skype when I confronted him.

I am E-whoring myself and I can consider myself as good E-whorer, there is no such thing as "saturated", the only thing is dedication and how much you're talking to these people.

Not true

I have done literally everything you told me too, although you hardly ever answered my questions, most of the things you wrote in the thread I had to literally drag out of you to tell me, send the packs you promised etc.

You offer a money-back guarantee, you did not state there's something that "voids" the warranty.

Did I not tell you I used an account you didn't know about?

I used it on Paylvvy since PayNite seemed dubious to me and I thought it might have been your website (since it's so small, not SEO ranked at all etc.) and my own pack on Paynite made more sales for some reason then your pack on Paylvvy, can you explain that?

Wonderful, so now we all know that this will be getting closer to (if not actually) getting solved.

I think what happened was OP expecting something revolutionary for \$1000 and was disappointed with what he got. He could easily make his money back with the method, I think. I'm not 100% sure what it is but if he can make \$150 with a shitty pack of pictures, he could probably make more with a convincing pack. Perhaps have a photoshopped proof sign or something with your Badoo user ID. That's convincing. It always increases sales for me, but I never used Badoo and don't know anything about it.

Roses, are you gonna help him solve the problem or are you gonna sit there and look at your stupid fucking 1 btc you just got? Can't believe you're so desperate for money. So pathetic.

Darkwin - November 18, 2015, 3:20 am

I can vouch that OP got scammed, Also let me just leave this here. ?

First few pages: people agreeing with OP and nothing really happening.

All other pages: Roses and Brahma™ DESPERATELY trying to show their apparent "intelligence and wealth" By posting pictures and talking about grades and the items they acquired lmao. the cringe is fucking real.

Please grow up.

Nice summary.

Apparently you have no idea as to why I have posted those pics and comments. But it's okay. You too have a right to form an opinion basis of some posts on a thread. Can't blame you at all.

I'll try not to post on this thread again as I am done with what was necessary and in the interest of OP's VALID scam report of course.

Time to grab a bag of popcorn and watch the drama unfold as soon as OP gets online. ?

Bro i'm sorry for your loss, i'd like to point something out (not to be a dick or anything of the sort) but logically speaking why would anyone sell any method that makes \$500 a day or even \$10 a day consistently that can be replicated with ease (with the exception that's it's either seriously hard work or somehow makes the seller more money) they simply wouldn't.. HF's in known for it's shitty ebooks and "methods" to make money, hell one bastard sold a method in ebook form that was reselling his ebook or making ebooks and selling them on hf and people ate that shit up... his stupid sig was everywhere for months...

a method (business model) to make \$500 a day is a \$183K business most businesses (but not all) sell for 3X what they make in a year on average, hence a real method to make \$500 would be worth over half a million not 1k

Grievous is fucking awesome

It's most likely operator error on your part.

Niccolò Machiavelli - November 18, 2015, 5:14 am

Just putting this out there, but I have watched 2 livestreams of Grievous make \$200 or more in 30 minutes while ewhoring. Unless he is sending money to himself, then I'd say his method does work.

LOOOOOOL YOU GOT HIM THERE SON

WWWWhite - November 18, 2015, 7:49 am

Grievous has contacted me recently, saying he'll pay me back.

He has sent 80\$ to my PP and has deposited 200\$ on coinbase to buy bitcoin, I should get it on Tuesday, and after that he will be repaying me 200\$ the week after that, and a 100\$ the next week.

The last 100\$ (500 + 100\$) will come the first week in 2016.
