Thread: [Orgy skype comprimised \(wasnt me, fuck off\)](#)

I dont know orgy offsite or at all really, but his skype has beem compromised by somebody I know (they dont use HF anymore: <https://hackforums.net/member.php?action=profile&uid=1885925>)

^ I dont like snitching, but when they turn this around and try to fuck me I don't really have a choice

They are literally trying to get me closed on HF because they think its for retards

Idk what else to say, I thought it was funny at first because he was linking me chats where people was shit talking me.

Then he started adding me from his skype and a few friends of mine who are in orgys group chats linked me some chatlogs and he's trying to frame me for this dumb shit

Felt like I needed to make this before I get blamed.

1. Never had any actual beef with orgy, just flame wars which were pretty light hearted in reality
2. Tricorn getting closed was fucking hilarious, because 40 people warned him about it
3. I don't care for this retarded beef stuff anymore tbh, that sort of ended when vinnie n understalker got closed, i just want to sell my shit and chill in my group

edit: should prob put this here

skype = orgy.php

Yeah I've never heard of him. Kids being salty I guess. Thinks he's clever maybe

Welp I've been needing an excuse to fully switch over to lastpass for everything. I guess this is it.
