Thread: [Save about a dollar at McDonald's](#)

Fiddle?™ - November 18, 2015, 6:37 pm

I am making this thread as I am eating inside of McDonald's. So here's what happened and how you can save money.

I had \$8 and I wanted a Double Quarter Pounder large meal. The tax made it over \$8 (about \$8.43). I then instead asked for the Double Quarter Pounder and Large Fries with no drink. Without the drink the total came out to be exactly \$7.69 with tax.

Method: Order your meals piece by piece without a drink. Just do what I do and carry a bottle of water everywhere.
Hope you all find this useful.

Ps. Another method to get a free sandwich is to ask for an extra topping ie. Onions and hope they forget it. If they forget it ask them to put it on and they should give you a free sandwich or some other form of compensation as they are usually slow with these kinds of things.

(Nov 18, 2015 07:41 PM)Game Freak Wrote: [\[CITE\]](#) 1. you can redownload the app each time u go for a free sandwich then only buy fries.

2. ask for a water cup, and put soda inside.

Save you \$6 right here.

I can't believe something that major actually works. I'll make sure to try that.

This'll save me quite a bit of money as I come home from class and stop at McDonald's twice a week. Thanks

Trust me, I of all people know.

It depends on location, mcdonalds by me dont even have sweet teas for a dollar anymore. (FL)

Not all places have it for a dollar. There are some McDonalds near where I live that does not even have a dollar menu.
