Thread: [|| Support The RAT Section || #SaveTheRATSection || Please Read || Signatures ||](#)

Root - November 18, 2015, 11:20 pm

 Hi HF, I'm recently getting really pissed of seeing all those "Low Quality" threads posted in the "Remote Administration Tools" Section.

I feel like there are at least 2 threads made every day In this Subjects:[Which RAT is better?](#)

[Best : Free RAT / Paid Rat](#)

[\[Question\] Where have the free RATs gone?](#)

[Have you ever used SpyGate RAT?](#)

[Need help RATing someone. Will share l00t \(teach me along the way?\) CS:GO](#)

[Want to buy RAT](#)

[RATs](#)

And 100s of more posts that are LQ and are just Copy Past.

It's really sad to see a great section like this to be filled with all those trash threads. ?

People now days are so lazy they forgot about using the [Search](#) page.

Please guys don't post before searching and looking around the forum to find the answer you are looking for.?

There are tons of help threads. Why not ask the simple questions to them?[RAT Expert | Best Help](#)

[Desk | Answer All Questions | Team Viewer Support](#)

[FREE\]\[RAT Setups,Portforwarding, etc\] \[3 YEARS\]](#)

[\[Free Remote Administrator Tool\] Help Desk \[By JaGLy\]](#)

[\[RED LIONS\] xVulnerable | Ask Any RAT Questions | RAT Help Desk](#)

Please, lets clean the R.A.T. section and make it a better place. ?

Help the R.A.T. Section by wearing one of this signatures.

The section is asshole skid central. It's just selfish people attacking random individuals for their own gain. I know how it feels to have one of the only sections you like to go to descend to skidhood, but this section has always been deep within skidhood.

Fiddle?™ - November 25, 2015, 4:04 pm

I really hate those "copy pasts".

Root - November 25, 2015, 4:09 pm

lkr most of the people who been in this section for years, hate them.

Armada - November 25, 2015, 5:09 pm

This is a direct clone of Businesses #SaveTheRatSection campaign hes been running for ages. One of which got some critical rules for this section changed.

However, I will note something, utilizing signature space to promote a quote, phrase or in this case, hashtag is fruitless.

All it takes to actually SAVE the RAT section is for the knowledgeable members to actually post more high quality content, and for us to somehow get the best of the best pinned, or something along those lines.

You are right, but there are 100s of quality posts on this section and still the newbies don't use them. They don't even use the "Search" anymore. There are so many posts just asking Which rat is the best or Which rat should they buy.

Every day 1-2 of the same post are made. There are also bunch of useless posts of people asking for download links of rats, when they can just search and find there answer.

Simply put you cant teach stupid.

People who want to learn do. But majority around here just want to be spoon fed or have someone else do it for them without any effort on their part to learn anything. In my PERSONAL opinion, this is a very dangerous practice. New users who do not under stand the technology behind remote administrative sotware get ahold of it, come around find SOMEONE willing to do a setup and configuration for them and thy start infecting random machines without understanding the networking and risks behind the actions they are taking.

Next thing you know they figure hey this was easy, and get some other hair brained idea like to steal credit card information of drain bank accounts out.

Rarely have I ever heard of this ending in a good result.

But what can I say, welcome to HF RAT Section, where everyone is 12, wants to act adult, but live at home getting allowance being spoon fed. ?

Clarity - November 25, 2015, 8:05 pm

Maybe make a FAQ Thread and add quality threads links in to it. Then always bump to stick in the first page? :o I know its spoon feeding but it will reduce some spam

Insane Developer - November 29, 2015, 8:19 pm

Bumping this. #SaveTheRATSection bruh

Root - November 29, 2015, 8:24 pm

Thanks for the bump dude.

Who Soup - November 29, 2015, 8:25 pm

Spyloterror - November 29, 2015, 11:43 pm

Sumanta123 - November 30, 2015, 10:19 pm

thanks for making a rat section ..

Root - November 30, 2015, 10:25 pm

"thanks for making a rat section .."

Your welcome I guess?

UntoldMythical - December 1, 2015, 8:47 am

Yeah, the RAT section is slowly dying...

Armada - December 1, 2015, 7:08 pm

I return to this thread to discuss something to OP.

As I noted in my last post, These posts are not helping your clearly well intention cause. Something that can be done, and I simple do not have the time to do so myself is make the crypter threads up, as to which ones work best with what clients.

It is something greatly needed in the section and something I would highly support personally.?

Inveno - December 6, 2015, 2:14 pm

That makes me ask, what kind of threads do you want to see in the RAT section?

Insane Developer - December 6, 2015, 7:30 pm

BTW one of the signature images is not there anymore :)

Brutal Chaos - December 6, 2015, 8:37 pm

The RAT section has been like this as long as I can remember. The only difference now are the newer clients being released but same questions and threads for the most part.

Black Shadow - March 21, 2016, 1:10 pm

I cant see this section closing anytime soon.

Going to wear the signature to help stop LQ threads in the RAT section.

I think this is the best grave dig of all time! This is actually much needed, I see the same issues we were having back then are still occurring now. Let's get this section cleaned up!

I wish this would clean the section up, but I don't see how wearing a signature would do anything.

Good initiative, should keep the RAT section less cluttered.
