When you start recycling you will receive profits:

25%-50% revenue share
avg. 2% weekly profits and more

Accepts, and pays out with Credit Card, Paypal, BitCoin and Bank Transfer, payments
With your new account you can:

Just Buy waste for the free 20 you get and wait.

The minimum Payout is 20, But you have to buy waste first. (Still no investment on your part.)

How to get the method:

Hitting you up with a PM, will leave here what happens.

FYI, if you're intending to cash out to your PayPal, you need to deposit €20 first due to "security reasons".

Not sure about the other payment processors.

I believe these type of threads are not allowed in this section:

6. No "Post here to PM me" type threads.

This is not a Post to Pm thread.

Example of post to PM: "Post here and PM me"

I only said to PM.

I smell Ponzi scheme here...

Buying waste, really?

jamalis - November 25, 2015, 10:02 am

Not interested in storing garbage at my place, and I believe waste is really hard to sell :<

Without sarcasm, this thread is really lacking of information. Impossible to understand where I am getting into.
