Thread: [Codecanyon Viral Lock - Like, Google 1 or Tweet to Unlock](#)

[\$(5)\$] - November 20, 2015, 3:06 am

Have you ever wanted to expand your company's Social Network profiles but haven't had the ability to create a feature to lock access to your site until the person likes, tweets, etc?

I am offering the source of Viral Lock. It is a VERY, VERY good feature to have... especially if you are wanting to build your social networking profiles.

If you would like this, I am currently sending the full source to any L33t or Ub3r whom requests it.

Let me know if you want it,
[\$(5)\$]

I sent you a PM, bud!

`KSI - November 20, 2015, 4:00 am

I want this if you are still giving it out thanks :)

I would really like this.
Thank you
