YOU COULD TECHNICALLY REFUND LATER ON IF YOU WISHED BUT I DON'T CONDONE :) I ONLY CONDONE MY LEGIT METHOD TO GETTING CODES!)

The method to get the gift card codes does not. That is method I am selling here, to make alot of money on Amazon via the gift card codes.

Mike? - November 20, 2015, 7:25 pm

Are these gift card codes obtained legit?

Chief Dinero - November 20, 2015, 7:27 pm

(Nov 20, 2015 08:25 PM)Mike? Wrote: [\[CITE\]](#) Are these gift card codes obtained legit?

Yes all the gift cards are legitimate and good to go, you'll have no trouble. The method is to obtain massive amounts of legit gift card codes & be able to use and spend them no problem.. All legit though. It's a simple method, once you learn you'll be able to do it no issue. I will also teach some other tips & tricks to maximize your profit aside from the main method for the gift card codes.

Mike? - November 20, 2015, 7:30 pm

About how long would it take to obtain... let's say \$1000 AGC.

Royal Crowd - November 20, 2015, 7:31 pm

Damn, my eyes from the bold font.

What exactly is this?

You get unlimited gift cards or?

If you are trying to sell a method to refund Amazon items, it's not hard at all and there's plenty of public methods.

Have a nice day! ?

With the method if you were working it good, could easily make \$1000 AGC is 3-7 days depending on your skills to work with the method itself. It's autopilot too but if you work it, you'll make more quicker.

I've taken a vouch copy.

I will attempt this method and post back with proof of earnings as well as an in-depth review on if this is worth it or not.

Also yes it is cracked accounts if you want real profit, don't really need to go into details with that but you can easily tell by the proof video you did not buy tin oil, boxer shorts etc. Refunding cracked accounts into AGC but you don't spend it on the acc you refunded as the account will get locked so you then contact live support (The method is done now, if you think properly you'll figure it out).... then your remaining AGC on the acc is processed via your requested email. Not gonna just spit out the method but its not worth the price your selling it for just saying. Have a good day!

Yeah I'm sorry to tell you but my method is NOT REFUNDING, NOT CRACKED ACCOUNTS, NOT SE'ing.. But good try. My method is to drive traffic that will give you Amazon E-Gift Card Codes.

My method is to generate massive amounts of Gift Card codes to you to redeem and purchase whatever you desire on Amazon.. But I cherish your opinion, but it's wrong in this case.

They are GIFT CARD CLAIMS, if they were from cracked accounts that is BALANCE TRANSFER.. Big difference man.

Maybe you think the only way possible to make money on Amazon is with using illegal cracked accounts, but sorry.. I have a method that's legitimate, legal, and you'll earn good money with it.

The accounts in the video are my own personal accounts I could login and show you any time of the day, I can also show you the stuff on webcam from the account in the video.. This is the real deal, and you will soon find out.. You will regret missing out on this opportunity & not jumping at the opportunity of the method.

No, in the balance of your Amazon account those would show as BALANCE TRANSFER, not GIFT CARD CLAIM.. In my screenshots, the money is all GIFT CARDS.. Cracked accounts you don't get that from.. I'm telling you my method is NOT CRACKED ACCOUNTS OR ANYTHING RELATED.. So that answers your question.

Like I said previously, the accounts showed in the video are my personal accounts and I could prove it. (On skype, on webcam, whatever.)

Anyway method is still bubbling hot, if interested PM me.

I showed this user everything he wanted to see! This user wasn't even interested in my Amazon method he was interested in buying a pair or two of Ray Bans that I am selling.. I proceeded to show him the Ray Bans & he very much wanted them.. Once we started talking about payments he was flipping shit because I told him I already had offers on those specific Ray Bans for Ub3rs just like him willing to pay he got mad and started yelling at me insults and then hung up and came here and posted. I even showed him my Basketball arcade in my theater setup and then this.. Pathetic. You're obviously just distraught that I had other offers and wasn't desperate on your offer.. That's the point of the review copies. Once trusted members can give a detailed review, then it will bring in sales. It's hard to make sales with people being skeptical because your current vouches have little value

OP I read every single post on this thread you keep saying your going to give out a vouch copy and never do.

I think you should give a vouch copy to an uber, there are many in this thread that are HQ to vouch for you, to see if this isnt a scam or anything black hat. The "vouches" you claim to have aint shit, just saying.

No.

You will need a email provider with SMTP such as GMAIL and you will need a host, either a free host or a host such as from HostGator. That's all you need to start the method.

You will get the codes sent periodically to your email and will be hosting a page I give you that will be collecting the codes.

Everything will be covered in the method and course we do on Skype.

You will earn around \$1000 or so every 4-7 days in Amazon codes.. You can use them yourself for orders or you could even sell the codes on forums, etc. if you wanted.

All I charge is \$125 to teach the method.

You can also tweak the method for specific countries if you aren't in USA / Canada.

Well that's why I've priced it the way I have. Some members will buy it, but it will weed out the bad ones. Only the highest quality members will be able to invest into it and if they pay top dollar they won't want to give it out for anything cheap they will want to earn with it so it keeps the method at a premium.=

1: English is not my native language either.

2: You don't seem to understand, you vouched for him and not the method.

You guys are friends, I could PM any of my friends here and tell them to vouch for me.

What I meant is, in your review you explained nothing about the method.

We don't know what to expect, nor the basic requirements for it. Just nothing.

Many users ask their friends to leave fake vouches for them so that people will buy their method but in reality they do not work.

When I leave a review, I always try to tell to the potential buyers what they will see in the e-book to have an idea of wether they should buy it or not.

And as I said, you did not do that in yours. You could just edit and make a better one.

English not being your native language is not a fair reason since it is not my native language either.

Let's give an analysis of his vouch.

First statement: worthless

Second statement: worthless, who cares if you did a deal for a separate product.

Third statement: only relevant part but it's so weak and inconsistent. He says he had tried it and learned so much but provides no evidence. He goes back and forth between service and method. But the most concerning part is that he said he learned so much but could barely write anything about the method which makes it look like he never even received it at all. In reality this so called "method" is non-existent

Fourth statement: this just seals the deal of how bad this "review" is

Also OP I'll ask again. Why do you have matching IPs with 3 other members :)

Look man, vouches saying you're a good guy and that the method is awesome don't do anything for me. We're looking for reviews, you know, originality, ease of use, all that kind of stuff and the scores x/10 along with some details about the method.

If I threw \$125 at every ebook that was considered "good" or "awesome," I'd be broke. And I'm not sales trashing, for all I know this could be the best ebook here that could be the best investment I'll make, but until it has some people reviewing its content in more detail, I can't take the risk.

Right, but the important thing is it still needs to have credibility. In general the more expensive the service the more credibility it needs. Best way to have credibility is to have a couple detailed vouches to point to, or to give a more detailed explanation on what the method involves.

I am working on it man.. I said I am selling REVIEW copies for \$25. That's \$100 off! ?

Op how to do expect to have success selling this when you're arguing with potential buyers?
This thread has over 100replies and not one of them applies credibility to your method.

Got to do better dude.

OP, you do realise the saying goes "the customer is always right", not "I'm always right"?

Chief Dinero - November 23, 2015, 2:27 pm

I am offering review copies for \$25 BTC. This is \$100 off the original price. But only highly reputable members can get this deal in exchange for a nice detailed review of the method / course.

One thing to mention guys is, this is NOT an ebook. It is a live one on one course on Skype / Teamviewer!

Contact me if interested. I already have sales, and vouches from Ub3rs with 300+ rep and more..

As the OP didn't like my proposal of escrowing the payment or using a middleman, my best guess is that this is a method to get ripped off.

What does my rep have to do with anything? Im not asking for a vouch copy. Judging by that aggressive response, I suggest no one buy this. Whether it legit or not I cant tell you, but op is obviously desperate for your money so it could just be one big scam.

Nobody is buying your shit for several reasons:

All you have posted so far looks sketchy as fuck. From 125\$ to a vouch copy for several members for 25\$. WHAT THE FUCK?

Your "vouches" don't mean shit, since one is from a friend and other from a non-upgraded user. People want DETAILED REVIEWS about the content, the originality, and proof that it does indeed work

You don't want to escrow, nor middleman. Sketchy as fuck.

What kind of seller says this : "Didn't have the time or energy to waste my time with you considering I already have customers so I forgot about you" WHERE THE FUCK ARE THOSE COSTUMERS FFS.

Just give a damn vouch copy to a reputable member like boxxxy or Evil Bob. Or close what is in my opinion this poor scamming attempt.

So you took his money... You just admitted to scamming him rofl

If you even think about sending money to this guy I feel bad for you lol

Juicy - November 24, 2015, 9:46 pm

After the scam report, you will need to give out a vouch copy or something.
If you want, I can write a nice review.

Chief Dinero - November 24, 2015, 9:55 pm

Giving out review copies for \$25.. JUST PM ME!

You should probably give out an actual vouch copy. Not a paid review copy. For all we know you're good to leave with \$25.

Yes but I have to keep the consistency of my method.. If I give out for free to people it will get saturated and won't be as good. It's better for all the current customers, the methods, and my time to pay atleast \$25 for a review copy.

BTW I am accepting PayPal now for the class! ?

But no one has purchased. If you want anyone to buy this method from you, you must give out a vouch copy to someone they can trust.

MasterOfCocaine - November 24, 2015, 10:24 pm

Let's just agree that at this point the only people who will buy this method are people as stupid as OP.

R.I.P - November 25, 2015, 10:25 am

In light of your scam report and IP matching 3 other users, you'll need to give out a completely free review copy. No one wants to risk losing \$25.

Detailed review. Not "OG shit" or "awesome method" like that review you keep quoting.

Agreed. Hopefully no one's that dumb. Talked to OP when he was trying to sell me his Raybans before all these reports, he sounded like the biggest retard crackhead. Half the convo was me laughing my ass off because I thought no one was dumb enough to get deceived by this retard.
