UPS or Fedex? I think that's what you're looking for.

You can use international shipping with fed ex....

Here you go, a list to compare all of them.

Try <http://usgobuy.com> as they are the only one with a free membership.

And if they allow you to choose the shipper once it arrives at their warehouse, go with USPS for cost (but they're SLOW) or FedEx (best shipping service in the US hands down).

Thanks for the list.

No, as I am from the US. However, I did a background check on all the companies after you asked that. Don't use reship, I'll tell you that. They are the worst option of all.

The best option where customers have had the most luck, and the safest option of all is <http://MyUS.com>

MyUS.com is a reputable site, it could end up being rather expensive however so keep that in mind when you're purchasing the shoes.

Sure, you have to pay a premium for using them. But they appear to be the most legitimate of them all.
