Just posting to let everyone know gambling is stupid and you should not do it. You have a 100% change of earning the same amount with his mentoring as you do without it.

I wouldn't trust people paying via paypal either for this service. ?. Because if it goes south, and they lost everything, I'm sure they would charge back. XD

Yeah, I know, that's why I'm only taking BTC at the moment. But honestly, if they follow me they shouldn't lost much at all.

It's actually a lot easier than you would think to profit on Bustabit with minimal losses overall. \$15 per mentorship session. The sessions will last about 45 minutes or until you understand how the game works and when and when not to bet. You will be mentored over skype because I will have to see your screen. You can also request help at a later time free of charge.

What you will learn

How to efficiently gamble on Bustabit while losing very little.

Learning when and when not to bet.

How to tell when it will bust almost instantly, or at a low amount.

How to make \$\$\$\$\$\$\$\$\$\$\$\$\$\$\$\$\$\$

I'm only accepting BTC for the time being because I don't trust these hoes with paypal.

For any inquiries just pm me and we can sort it all out.
